

MAGNUS WEBINAR

MAGNUS
The Game Changer
for your Lean Lab

Our New MAGNUS tissue processor offers many unique advantages

- **No cleaning cycles** mean maximal uptime and minimal user intervention
- **Ultra rapid, continuous mode** for lean processing in less than 1 hour
- **Real-time reagent quality monitoring** with built-in ultrasonic sensor ensures best specimen integrity and reduces cost
- **Dual manifold configuration** separates water and alcohol based reagents
- **Automatic wax refill** saves time

23rd
July 2020
Time: 1 PM

Date or time not fitting your agenda? Don't worry - if you register to the event we will get a recording sent to you.
